

## *Not Your Grandmother's Water Company: How Advances in Information and Communication Technologies Are Improving Water Management in an Age of Tightening Supply*

**Tuesday, September 24, 2013**

5:30 Registration and Refreshments

6:30 Panel Presentation

7:30 Q&A

8:00 Adjourn

### **Metropolitan Washington Council of Governments**

777 North Capitol Street, NE, Suite 300, Washington, DC

(near Union Station for Metro and MARC)

*Parking is available in a garage underneath the building.*

*Directions: <http://www.mwcog.org/contact/directions/>*

Wireless metering, automated leak detection, mobile technology, instant alerts to customers, infrastructure inventory.... A variety of advances in information and communications technologies are transforming the way that water and water infrastructure are being managed.

With featured panelists affiliated with the Water Innovations Alliance

([www.waterinnovations.org](http://www.waterinnovations.org)), join us for a discussion of new technologies, their promise for better water management, and the challenges of bringing newly developed tools online.

### **Panelists:**

#### **Kyle Reissner**

Senior Product Marketing Manager for Automation Software GE Intelligent Platforms

#### **Cat Shrier, Ph.D., P.G.**

CEO/Founder, WaterCitizen.Com

#### **Vincent Caprio, COO**

Water Innovations Alliance
